House of Scaffolding

OM SAI SCAFFOLDS

OM SAI SCAFFOLDS

An Overview

Om Sai Scaffolds has been practicing standard engineering norms since its inception. The emergence of this organization is not the outcome of sudden planning. But what it is today is the result of its strategical blueprint of manufacturing, marketing, distribution and customer complaint handling systems.

In the scaffolding world, we have the recognition of a trusted manufacturer and supplier that always follows standard quality parameters and applies latest production techniques to produce an unmatched series of scaffolded products having a wide industrial and commercial application.

Product Range

The industrial world is expanding at a rapid pace, making room for more products and manufacturers. The needs and requirements of every industry is equally affected with the changes brought about by technical revolution in the industry. Om Sai Scaffolds manufactures a range of premium quality scaffolded products based on latest technical standards followed in the industry.

Our Products Are

- Adjustable Spans • Adjustable Props • Right Angle Couplers • Swivel Couplers • Joint Pins
- Standard Cuplocks • Cuplock Ledgers • Adjustable Jacks • Adjustable Stirrup Heads • Base Plate
- H Beam Form Works • H Frames • Shuttering Panels

Quality Assurance

At Om Sai Scaffolds, utmost importance is given to the quality parameters. The company's endeavor remains fully overshadowed with the concern for total customer satisfaction. Here standard quality measures are followed under which every product is made to pass through a rigorous quality tests procedure. To ensure flawless quality examination, we have a team of highly skilled quality staff possessing deep knowledge and vast experience of the industry. Our products have long shelf life and advanced features that advocate for its wide applications.

Our Infrastructure

Apart from a robust manufacturing unit, Om Sai Scaffolds has dexterous workforce, well organized distribution network, aggressive marketing plan, unmatched quality examination facilities, capacious warehouse and a well established transportation network across the globe.

Amongst the workforce, few prominent professionals are engineers, research fellows, quality personnel, marketing person, supervisors, amongst others. Ensuring optimum utilization of resources and doing minimum wastage of time, labor, etc. are given primary importance here.

Why Us?

- Unmatched engineering
- World class products
- Affordable prices
- On-time delivery
- Prompt delivery
- Wide client base
- Well connected transportation network.

Our Clients in

- All over India

Scaffolding Fittings / Cuplock Systems

Cuplock System is one of the leading Scaffolding arrangements used worldwide. Its unique node point connection makes it the fastest, Safe. Most economic and versatile scaffolding even conceived & designed.

Cuplock Standards (Vertical)

Cuplock Standards have cup joints welded at every 500mm or 1000mm intervals, thus offering levels for working & also for bracing the standards while using in the slab support when loaded. Pigot are permanently welded to the Standard. The top cup are coated out of malleable cast iron to ensure rough site handling and bottom cups of high quality pressed steel are welded. We are using ISI marked pipe of 2.9 to 3.0 mm thickness pipe. Available in different length from 0.5 mtr. to 3.0 mtr.

Size (mtr.)	Wt.(approx.)/ Kg/ Pc.
0.5	2.16
1.0	4.32
1.5	6.48
2.0	8.64
2.5	10.8
3.0	13.0

Special Sizes are also available as per requirements

Size center to center (mtr.)	Wt.(approx.)/ Kg/ Pc.
0.5	1.75
1.0	3.40
1.2	4.0
1.5	5.0
2.0	6.4

Special Sizes are also available as per requirements

Cuplock Ledger (Horizontal)

The Cuplock Ledgers have forged blade ends which fit in the cup joint on the standard. They can be used in variety of Ledger size combinations to suit required bay size & loading conditions. Available in different length from 0.5 mtr. to 2.0 mtr.

Joint Pin

Our company is engaged in providing a extensive range of Joint pins, it helps in connecting from one end to another, which is designed in conformation with IS 2750/EN74 standards, and they enormously used in the building, construction and maintenance industries

Scaffolding Fittings / Cuplock Systems

Adjustable U (Stirrup) Head

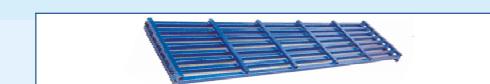

We offer to our clients a wide range of Adjustable Jack and Stirrup Head. The Adjustable Jack offered by us is used at the top of the scaffold to provide an additional adjustment of up to 600 mm. manufactured using high grade material, these are known for their sturdy construction and easy installation. Adjustable U Jack (Stirrup Head) fabricated out of 28 mm, 30 mm, 32 mm, 36 mm, 38 mm Ø MS Bar. U Head having requisite height fabricated out of 100x5 mm MS Flat & Malleable cast iron cup type, Double Handle light/ Heavy duty nut. Sizes available are 350, 450, 600 mm bar length.

Adjustable Base Jack

We offer adjustable jacks, scaffolding jack with rolled threads along with cut threads as per the requirement of our clients. These scaffolding jack, adjustable jacks are fabricated in solid as well as hollow version Adjustable Base Jack fabricated out of 28 mm to 36 mm Ø MS Bar 150x150x5 mm MS Flat Base Plate & Malleable cast iron Cup Type. Double Handle light/ Heavy duty nut size available are 350, 450, 550, 600 mm bar length.

Challi (Walk Away Plank)

We are leading scaffolding manufacturer and supplier, Our specialty is that we can supply the material in exact lengths as per the customer's requirement, Fabricated using quality raw material, the scaffolding offered by us are manufactured using the latest technology based machines that helps us ensure that these are in conformation with the stated industrial quality standards.

Adjustable Telescopic Span

We are engaged in manufacturing a vast range of Adjustable Telescopic Spans in varied dimensions. These are extensively used for the purpose of supporting floor forms while laying slabs. Appreciated for their Hassle free handling, transportation use and erection, these Adjustable Telescopic Spans are offered to clients in various specifications to meet their demands. These spans provide maximum safety with minimum supervision, fabricated out of 2 mm sheet lattices of 10 mm bar, and main bar of 14 mm & T section of 40x5mm support to be provided.

Size	Min. Mtr.	Max Mtr.
ESO + ESI	1.75	2.70
ESO+SI	2.35	3.45
ESO+ESI	2.40	3.45
SO+SI	2.46	4.15
SO+LI	3.05	4.75
LO+SI	3.15	4.90

Wall Form Panel/ Shuttering Plate

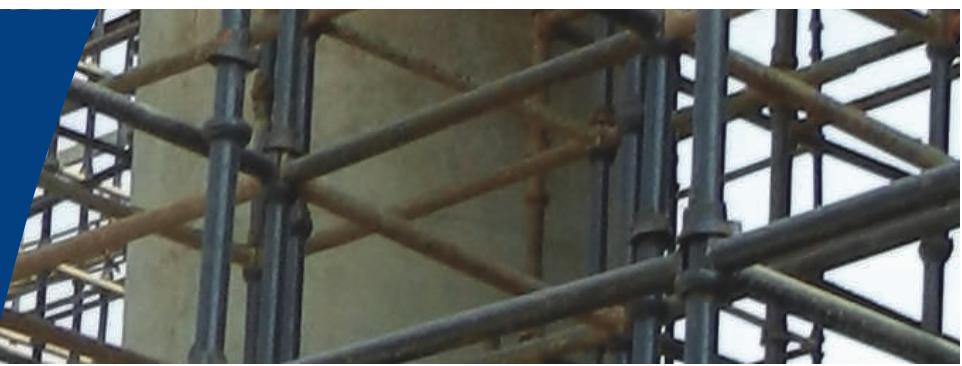

Wall form-work is a multi purpose form-work & is suitable for most types of in situ concrete construction such as walls, foundations, columns, rectangular or circular tanks, dams, sea defense works etc. These are made from high finish steel sheets duly stiffened by steel angles & held together by a rigid clamping and walling system to ensure a good quality finish time after time. This system of form-work gives complete versatility & at the same time being durable, accurate & fast, allowing simple erection with long life and low maintenance. It may be assembled to give a strip and re-erect sequence or may be formed into large crane handled units. Whether positioning by hand or moving large areas of form work by crane, steel panels will give a consistently good finish with only a single joint mark between panels.

We are the manufacturers of different type of wall-form panel like Ripting Shuttering plate, Welded Shuttering plate & Slotted angle Shuttering Plate and we are using 35x35x5, 40x40x5, 45x45x5, 50x50x5 mm angel for making of Shuttering Plates with 10 guage or 2.9 to 3.0 mm sheet.

Shuttering Materials

Adjustable Prop

Adjustable Telescopic Prop is one of the ideal, most economical & important part of shuttering system to support all kind of form work to slabs, beams, walls and columns. It is fabricated out of 'B' Class steel tubes and is in two parts i.e. Prop Outer & Prop Inner, the outer is fabricated out of 50NB (60.3 mm OD) tube having threaded/slotted top end, a malleable CI nut with handle for finer adjustment; the bottom is provided with welded 150x150x5 mm MS Flat Base Plate. The Prop is fabricated out of 40NB (48.3 mm OD) tube having holes at a regular interval of 150 mm. The end is provided with welded U/ Flat or Beam Head.

Size (mtr.)	Weight (KG)	Closed size	Extended Size
2x2	17.5	2 mtr.	3.7 mtr.
2x3	20.5	3 mtr.	4.7 mtr.
3x3	25.5	3 mtr.	5.7 mtr.

Soldier

Available with us is a qualitative range of Soldier that is extensively demanded by our clients belonging to the construction sector for use during casting of Wall Form Panel/ Shuttering Plate. **We are using 45x45x5, 50x50x5 mm angel for making of Soldier with 10 guage or 2.9 to 3.0 mm sheet.** Our precision engineered scaffolding accessories are acknowledge by our clients.

Beam Clamp

Our powerful, modifiable, and multi-purpose Beam clamps have found their extensive application in several industries. These have been manufactured using stainless steel that is corrosion-resistant to ensure longevity and great performance. Some of the characteristics of our Beam clamps are: Impart firmness to the framework for beams, concrete columns, steel stanchions casings and hanging soffits. The slot arrangement of clamp enables easy, quick, and perfect adjustment to all dimensions within size range.
